Reopening a Test

Test codes automatically expire everyday by 5:30 pm or can be manually closed by faculty after the class period has finished testing. Students are able to return to a test if the faculty has decided they need more time.

1) In your home page you will find a list of **Assigned Tests** at the bottom of the page. Find the class you would like to continue testing and click the action button to the right of the class and select **Proctor Exam**.
**Note:** The Proctor Exam button will only appear if there are enrolled students in the class and if the code is not active.
2) A window with a new test code will appear. Students should be able to continue the test where they left off with this new code.

**Exam Instructions**

**Nassar, Alya - Integrated Math I (6) - Mary Jackson Tech High (Spring 2017)**

Exam: High School Readiness Test (CCSSM-Aligned) [HS45A15]

This is a diagnostic test of topics needed for success in a California Common Core State Standards first year high school Integrated Mathematics or Algebra course.

**CALCULATORS ARE NOT RECOMMENDED**

**INSTRUCTIONS**

1. Wait for the proctor to instruct you to begin the test.
2. Work each problem on scratch paper, and click on the best response from the given choices.
3. All scratch paper must be turned in when the test is finished.
4. For you and your teacher to make the best use of the test results, you should not guess. If you cannot answer a question, leave it blank.
5. If you are spending too much time on a question, skip it. You may return to skipped items at anytime during the test.

**Accessing the Exam**

Exam Link: https://mdtpdiagnostic.ucsd.edu/v2/login/code/UYTC7

**Exam Code: UYTC7**

Code is good until: Thursday November 29, 2018 - 5:30:00 PM

**DO NOT** assign a new test in the class if you would like students to continue testing. If you assign a new test to your class, students will need to start the test over again.
