

CSU/UC Mathematics Diagnostic Testing Project Math Workshop at UC Davis – March 21, 2012

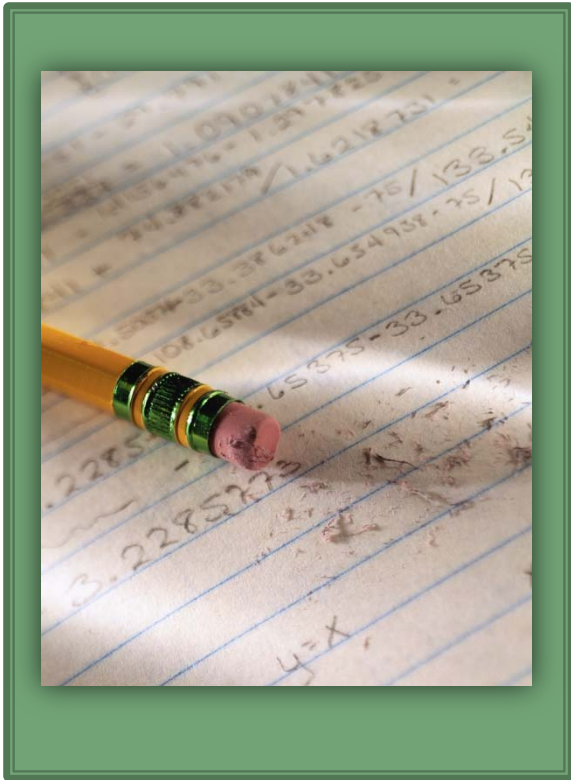

Join Us! Join us for a light dinner and two informative sessions.

Session One – Common Core State Standards: Are they really happening and if so, how will they change what I do in my classroom? By Robert Bachmeier, Yolo County Office of Education
Mr. Bachmeier will provide an overview of what the Common Core Standards are, where they came from and what teachers will/are being asked to do with them. He will also discuss the Standards for Mathematical Practice and how current materials can be used to develop these practices in your students.

Sessions

Session Two – They flunked the MDTP but they are in my class! What do I do now? By Gary Grout, Jesse Bethel High
Mr. Grout will use MDTP data from the Geometry Readiness test to show how to interpret the data to drive instruction. He will explain how to recognize the student misunderstanding of core concepts necessary for success in his class. He will model ways to reteach the concepts and to re-assess those concepts – all while keeping up with the Pacing Guide.

Professional Development Hours Offered

Join Us...

Date

March 21, 2012

Time

4:30 – 7:00 pm

Location

UC Davis Memorial Union, MU-II
2nd Floor

Contact

Trish Ramos, plramos@ucdavis.edu
