5) The Scan Code ID number and Barcode is unique for each student. It matches the student answer sheet to the teacher, class and test assignment.
Changing/obscuring either piece may cause the results to be inaccurate or delayed.

FAQ

Q: *Is it normal that the page takes a while to load when I try to download the student answer sheets?*

A: It depends on the number of enrolled students in the class. For larger class sizes, it may take up to two minutes for all the student answer sheets to load and display.

Q: *Do I need to reprint the entire Student Answer sheet if I add a new student?*

A: No, you can just print the page that the newly added student is on. The scan code and barcode will remain the same for the rest of the class.

Q: *I decided to assign another test assessment. Can I use the same Student Answer sheet I printed out for the old test assignment since the student roster did not change?*

A: No, the scan code and barcode is unique to the assessment it was printed for. If a new test assignment was created for the same class, you will need to print out a new set of student answer sheet with new scan codes.
